

## PRESCRIPTION REFILL POLICY

John M. Thomas, M.D.  
Willa F. Moore, M.D.  
Jessica E. Norris, M.D.

In general, we prefer to examine your child before prescribing any medication. This serves to make sure you are getting an accurate diagnosis and therefore the proper treatment. We also want to insure that a serious condition is not missed.

We might be able to call in or electronically send some prescription refills. We may be able do this for certain medications and conditions that are stable and have been evaluated recently in the office. WE WILL NOT CALL OR SEND AN ANTIBIOTIC TO THE PHARMACY WITHOUT AN OFFICE VISIT.

Refills may be requested in three ways: your pharmacy can send us a refill request, completing an online prescription request from the patient portal, or by calling our office.

*MEDICATIONS WILL NOT BE REFILLED ON NIGHTS AND/OR WEEKENDS.*
